

AUTOMATIC MERCHANTISER

The Monthly Management Magazine For Vending And OCS Professionals

As seen in Automatic Merchandiser magazine, February 2002

SimpliCool Technologies International LLC

The Global Refrigeration Solution (GRS™) is a self-contained, electronically controlled, close-loop, universal, interchangeable refrigeration module for vending machines. It comes sealed in a structural, thermal-plastic foam case, fitted with a variety of filters. It can be installed without plumbing or refrigeration connections and has a built-in evaporation system. No EPA certification is needed for handling.
