SimpliClean™

SAFE SOLUTION FOR HEAVY DUTY CLEANING

General Instructions:

SimpliClean™ is recommended for cleaning vending equipment including cabinets, snack trays and refrigeration systems. It is highly effective cleaning tough soils, especially oils and greases. In manual cleaning applications, SimpliClean™ rinses completely without slick or sticky residues and is safe for workers. Excellent for pressure washing concrete floors. Outstanding in all carpet cleaning equipment.

Use Dilutions:

SimpliClean™ is concentrated. Always dilute with water before using. For light manual cleaning applications, dilute 1:10 - 1:30. For medium manual cleaning applications, dilute 1:5 - 1:10. For heavy duty manual cleaning applications, dilute 1:3 - 1:5. For snack trays, use full strength to remove the waxy build-up. For all mechanical cleaning applications, follow the recommendations of the machine manufacturer or consult a SimpliCool representative.

Specifications:

pH	Neutral
Appearance	Clear liquid
Odor	Mild, pleasant scent
Operating temp. range	Ambient - 140°F
Usage dilution range	1:3 - 1:30

Handling:

DOT Non-hazardous & Non-restricted. Refer to SimpliClean™
Material Safety Data Sheet for additional information.
